PROFESSIONAL SUMMARY

B.Tech Computer Science graduate and aspiring Software Developer with hands-on experience building full-stack web applications. Skilled in Java, JavaScript, TypeScript, React.js, Node.js, REST APIs, PostgreSQL, MongoDB, and Postman. Experienced with authentication, CRUD APIs, database integration, file uploads, and responsive frontend development. Currently strengthening Data Structures & Algorithms and problem-solving skills.

TECHNICAL SKILLS

- **Languages:** Java, JavaScript, TypeScript
- **Frontend:** React.js, HTML5, CSS3, Tailwind CSS
- **Backend:** Node.js, Express.js, REST APIs, JWT, bcrypt
- **Databases:** PostgreSQL, MongoDB
- **Tools:** Git, GitHub, Postman, VS Code
- **Core:** Data Structures & Algorithms, Object-Oriented Programming, API Development

PROJECTS

Portfolio CMS & Developer Portfolio | React.js, TypeScript, Node.js, Express.js, PostgreSQL, Prisma

- Built a custom portfolio CMS and public developer portfolio with admin authentication and content management.
- Implemented CRUD management for projects, skills, blogs, experience, testimonials, services, and contact messages.
- Added image/media upload, JWT authentication with refresh-token flow, and REST API integration.

Text-to-Speech Platform | React, TypeScript, Node.js, Express.js, PostgreSQL

- Developed a web platform where users can generate speech from text, select language/voice, play audio, download output, and view speech history.
- Implemented authentication, validation, database integration, and responsive frontend workflows.

Cloud-Based Media Files Storage Service | Next.js, Node.js, Express.js, Supabase

- Built a Google Drive-style file storage application with authentication, folders, file upload/download, sharing, public links, search, stars, and trash/restore workflows.
- Implemented protected APIs and deployed the backend and frontend separately.

Insurance Management Platform | React, Node.js, Express.js, Prisma, PostgreSQL

- Developed role-based insurance management features for Admin, Agent, and Customer users.
- Implemented JWT authentication, customer/policy/claim management, premium payments, document uploads, dashboards, and reporting.

EXPERIENCE

Web Development Intern — LabMentix | 2026

- Worked on full-stack web development projects involving React, Node.js, Express.js, databases, REST APIs, authentication, and deployment.
- Built and tested production-style modules including insurance management and assessment workflows.

EDUCATION

B.Tech — Computer Science & Engineering | Vishveshwarya Group of Institutions | 2021–2025

CERTIFICATIONS

- Full Stack Web Development — Coding Ninjas
- Java, Data Structures & Algorithms, and CS Fundamentals — Coding Ninjas
- Java + Data Structures & Algorithms — Apna College
- **Current Learning:** Data Structures & Algorithms and problem-solving
